SKILLS

I am a multi-instrumentalist as well as a composer/arranger, I use technology including Sibelius for score production and Logic Pro X for Audio work. I can produce sample tracks, split STEMS and guide tracks as well as full sheet music for live musicians. I work from my own home studio in Bedfordshire (UK) and have the flexibility to meet deadlines, adapt to changing needs and revisit/review work to ensure it is of the highest quality and to the needs of my clients.
